To Whom It May Concern;

Re: Tumbler Ridge Geopark

On behalf of the Peace River Regional District, I am pleased to provide this letter in support of the Tumbler Ridge Aspiring Geopark Steering Committee's application to establish the Tumbler Ridge Geopark.

As the Committee's Expression of Interest outlines, Tumbler Ridge and surrounding area is rich in natural and human history with many rare attributes that are significant on an international level. The region boasts a Palaeontology Research Centre with associated education and guided tour programs, a Dinosaur Discovery Museum Gallery and community centre, all of which lend themselves to the protection, education and development of the region. As well, the wilderness nature of much of the proposed Geopark provides tremendous recreational opportunities and the potential to attract visitors from around the world.

We agree that the region is an excellent candidate for a Geopark and we wish the Committee every success in its endeavors toward that goal.

Yours truly,

Karen Goodings,
Chair

c.c. – Charles Helm, Chairperson, Tumbler Ridge Aspiring Geopark Steering Committee
